

Benefiting St. Louis Children's Hospital

Greenbriar Hills Country Club

September 27th 9:30 Registration, 10:30 Helicopter Ball Drop, 11 Shotgun Start

The Reason We Chose St. Louis Children's Hospital:

In 2015, our son, David Schaefer, was born with a couple of rare and severe medical birth defects which required him to live in the NICU in St. Louis Children's Hospital. The odds were against him from day one; however, his fighting spirit along with the incredible care he received allowed us to spend six months with our son. David, unfortunately, lost his battle with the illnesses in early 2016 but he continues to live on in our hearts and memories.

During our time at St. Louis Children's Hospital, we met many other families whose lives had been affected by the illness of their child. We know from our experience how challenging it can be for any family to deal with a sick child who is receiving medical care. We saw the generous things that people and businesses in the community did for Children's Hospital and are forever grateful for how they helped both the children receiving care and the families supporting them. Going through this experience was the most difficult time of our lives. However, we are blessed to be in a position to give back to those who helped David and other children like him. This is why we've chosen St. Louis Children's Hospital to be the recipient of our annual charitable fundraiser. With your participation and donations, together we can help to improve the lives of these children and their families. – Scott & Sarah Schaefer
